# RACHEL REILLY

---

## SKILLS

JavaScript, React Native, React, Node.js, GraphQL, PostgreSQL, Docker, AWS, CSS3

## EXPERIENCE

### **Sunroom, Venice, CA/Remote** – *Software Engineer*

FEBRUARY 2021 – JULY 2021

- Built features for beta app with React Native, GraphQL, Node.js, and Postgres
- Diagnosed and fixed bugs in the app and containerized environment
- Reviewed code, conducted QA testing, and deployed to AWS, Vercel, and TestFlight

### **Plastic Score, Remote** – *Front End Contractor*

MARCH 2021 – APRIL 2021

- Refined React app by modularizing components for a more flexible codebase
- Created design system with SASS to enable the team to style independently

### **Thinkful, Remote** – *Software Engineering Student*

AUGUST 2020 – DECEMBER 2020

- Studied full stack software development with the MERN stack
- Solved coding challenges in remote pair-programming sessions
- Completed 3 full stack capstone projects to demonstrate proficiency

## PROJECTS

### **Sliced** – *JavaScript, React, Node.js, Express, PostgreSQL*

OCTOBER 2020 – PRESENT

A recipe app with a custom string parsing algorithm to make ingredients scalable

### **Spaced Repetition** – *JavaScript, React, Node.js, Express, PostgreSQL, Linked List Data Structure*

OCTOBER 2020 – DECEMBER 2020

A language learning app that selects words based on a linked list algorithm
